

BELIEVE

The theme for the 2009 CAPA Conference is Believe! It will provide a platform for a variety of issues faced by Assistant Principals in Catholic Schools. Participants will have the opportunity to attend a variety of presentations which encompass different aspects of our responsibilities as Catholics, educators and administrators. It will challenge us all to believe so that we can achieve!

This conference will focus on:

- **God** "We believe in one God", the source of all life. We are empowered through the holy spirit to enter into a relationship with our creator. In a time where our lives are full of distractions, we are reminded that we are not alone. How can we come to know God and to answer His call to us?
- **Our Talents** Success can be a result of choosing the right goals for ourselves. Our abilities can be affected by the belief we have in ourselves. Are we delusional about our own abilities or are we our own worst critic? We can change our beliefs about ourselves and create a lifestyle that supports our values.
- **Our Profession** We work in a profession that is always changing. In reflecting or renewing our practices, we can build a refreshing atmosphere to believe in our abilities to confront pertinent issues. We can revitalise our belief in our instructional approaches and build on our confidence to raise achievements in our schools.
- **Service** We can enrich our own leadership within our faith communities. We hope to inspire our organisation to focus on ways we can live out the vision of the Church and take this vision into our communities to enact social justice and change.
- **The Future** Unless we believe in future, how do we have vision to move forward? This conference aims to spark our focus. We hope to reflect upon our achievement and set goals for 2010 and beyond. When we find a balance in our lives, it becomes possible to achieve personal goals, professional goals, spiritual goals and lifestyle goals.
